Mountain Echo

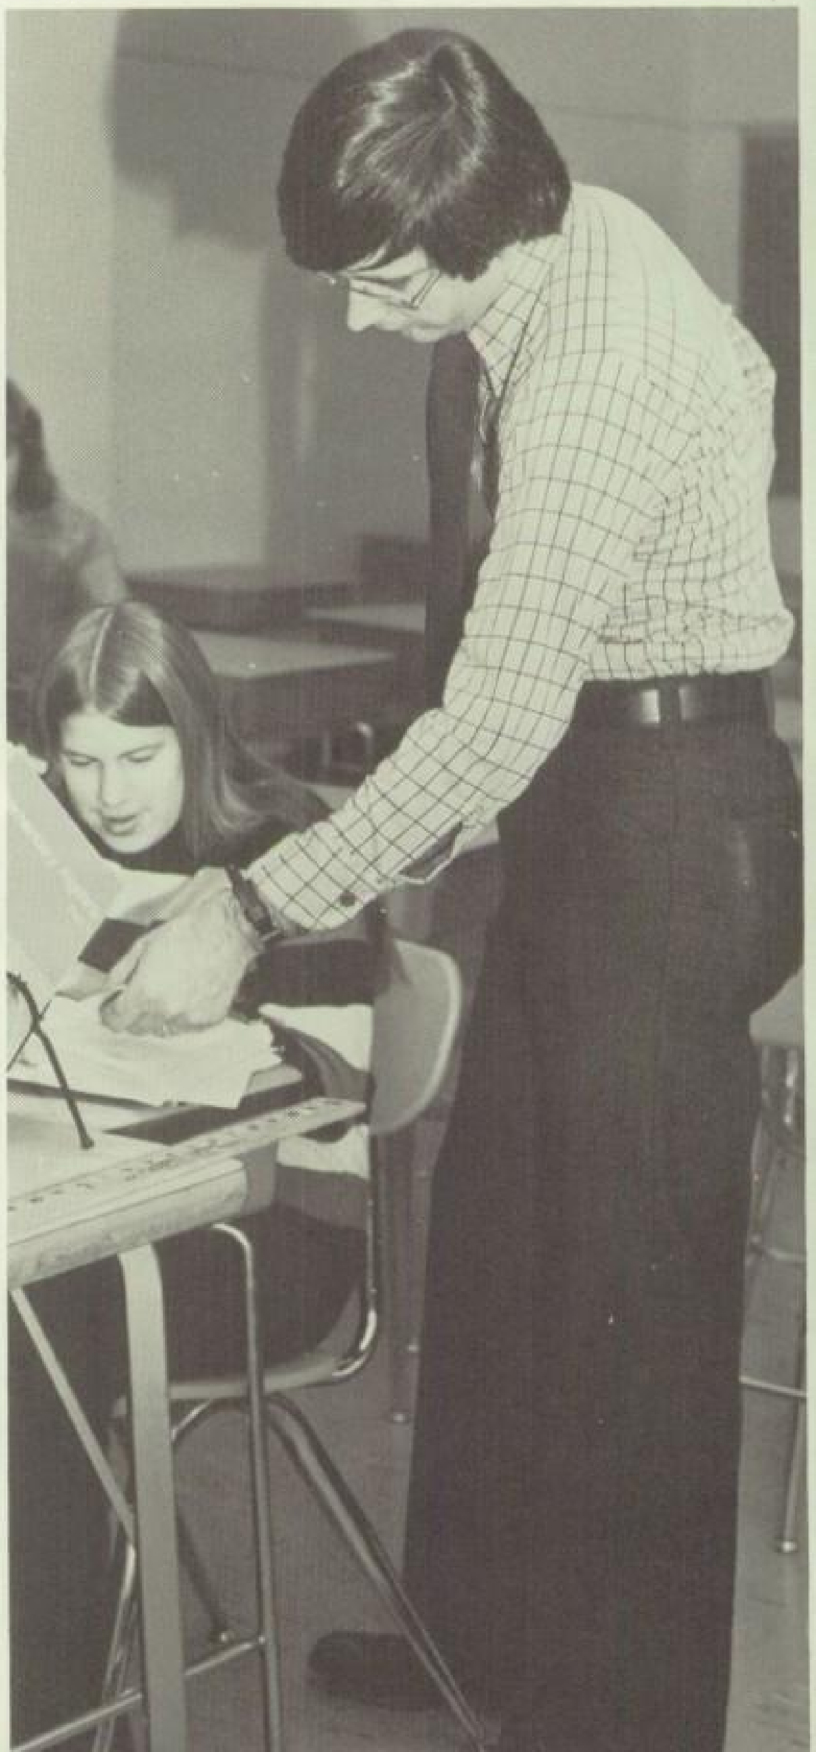

Clifton-Fine Central School
Vol. XXI
Star Lake, N.Y.

1974-75
Dedication to: Mr. Dean Hollern

A Thank You Note:

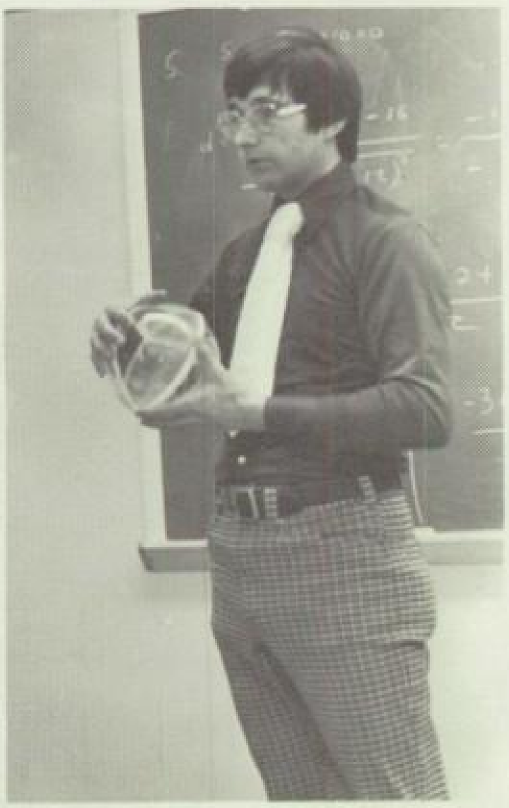

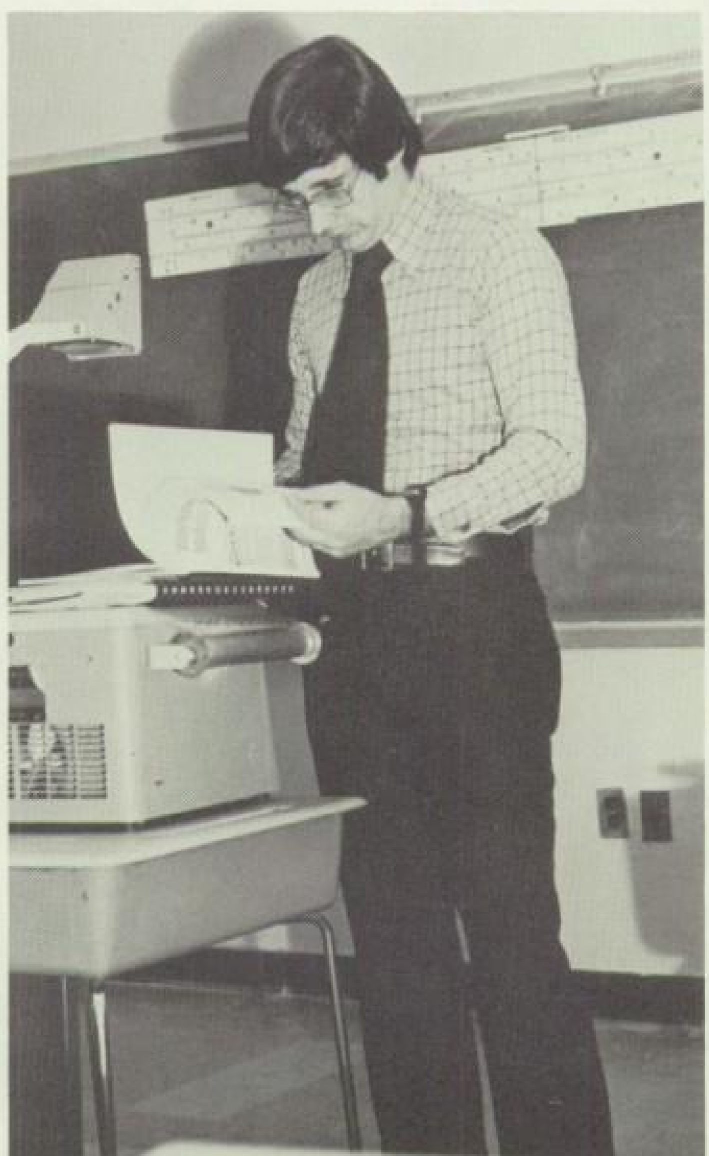

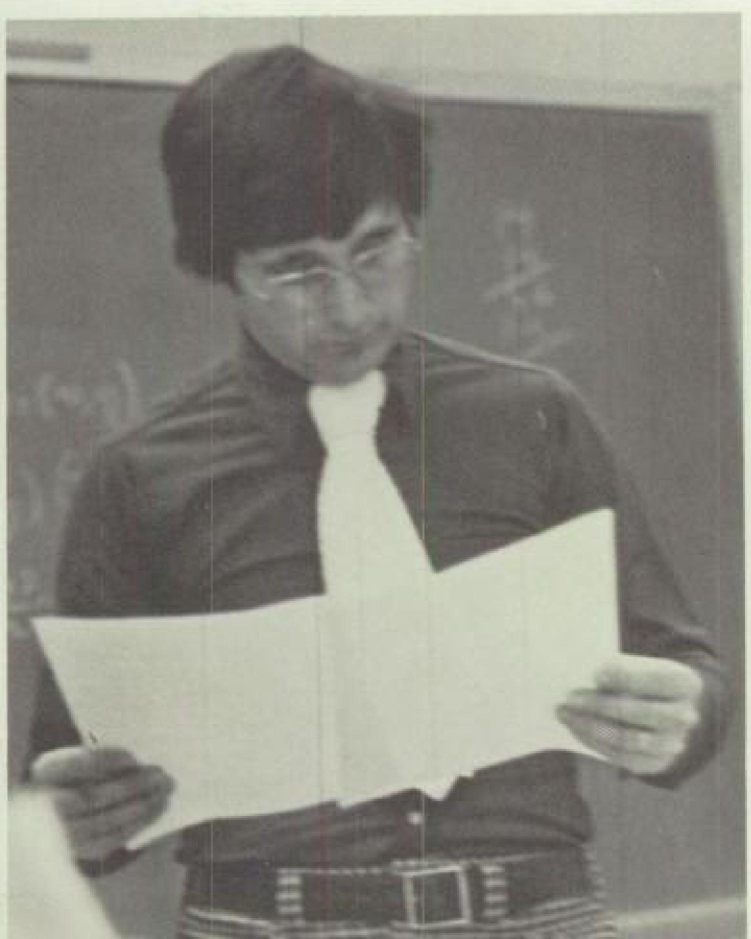

We, the student body of Clifton-Fine Central would like to thank you for your years of service by dedicating to you the twenty-first volume of the MOUNTAIN ECHO.

As we inch our way year by year toward graduation, we seem to forget that there are individuals always willing to go out of their way to lead us toward our ultimate goal.

We feel this dedication should go to you because of your patience and understanding as a friend and teacher. We greatly appreciate your knowledge and advice, but most of all, your undying enthusiasm that brightened the rooms and hallways of our school.

Thank you very much, Mr. Hollern

The Class of 1975

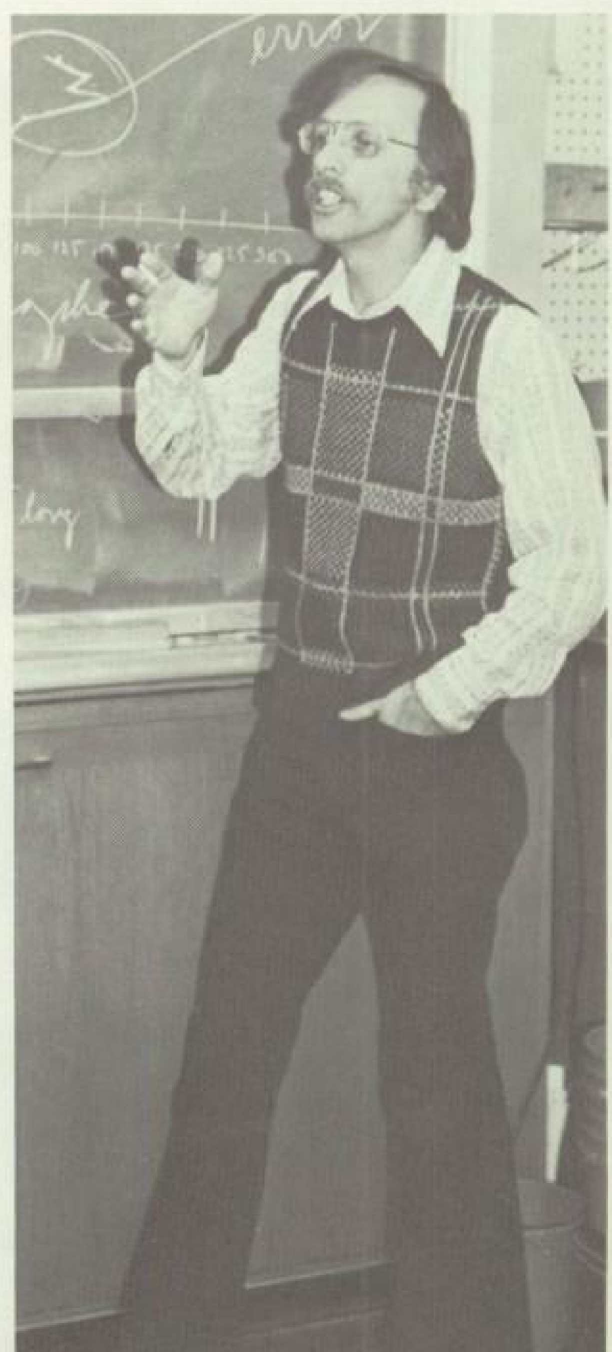

Thanks

A simple thank you for: a year of hard work, a great senior trip, many long hours, and sharing your lives with us. In appreciation of your advice and friendship throughout the year, the SENIOR CLASS of 1975 would like to dedicate this page to you, MR. BOWSER and MR. COOPER, our advisors.

Then said a teacher, Speak to us of Teaching.

And he said:

No man can reveal to you aught but that which already lies half asleep in the dawning of your knowledge.

The teacher who walks in the shadow of the temple, among his followers, gives not of his lovingness.

If he is indeed wise he does not bid you enter the house of his wisdom, but rather leads you to the threshold of your own mind.

The astronomer may speak to you of his understanding of space, but he cannot give you his understanding.

The musician may sing to you of the rhythm which is in all space, but he cannot give you the ear which arrests the rhythm nor the voice that echoes it.

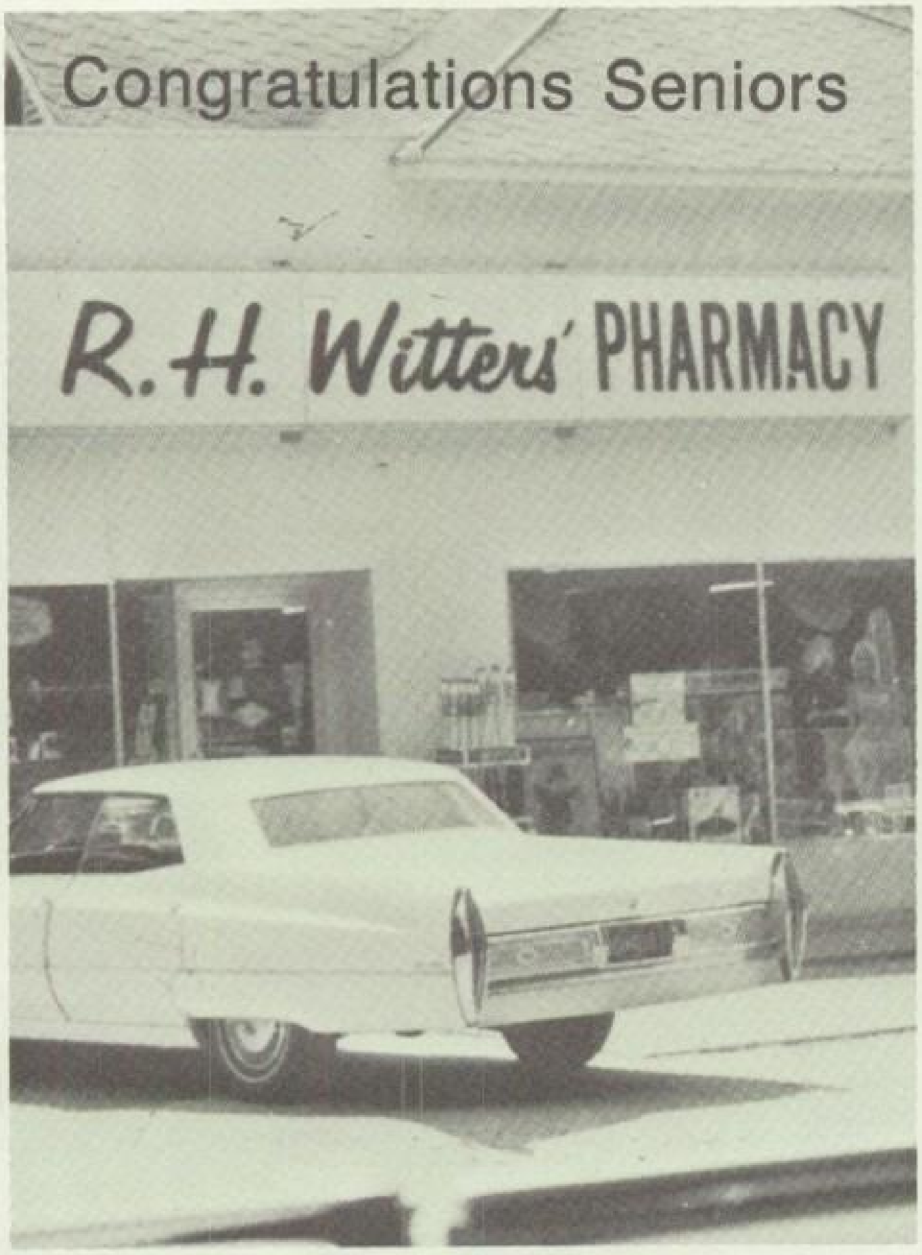

And he who is versed in the science of numbers can tell of the regions of weight and measure, but he cannot conduct you thither.

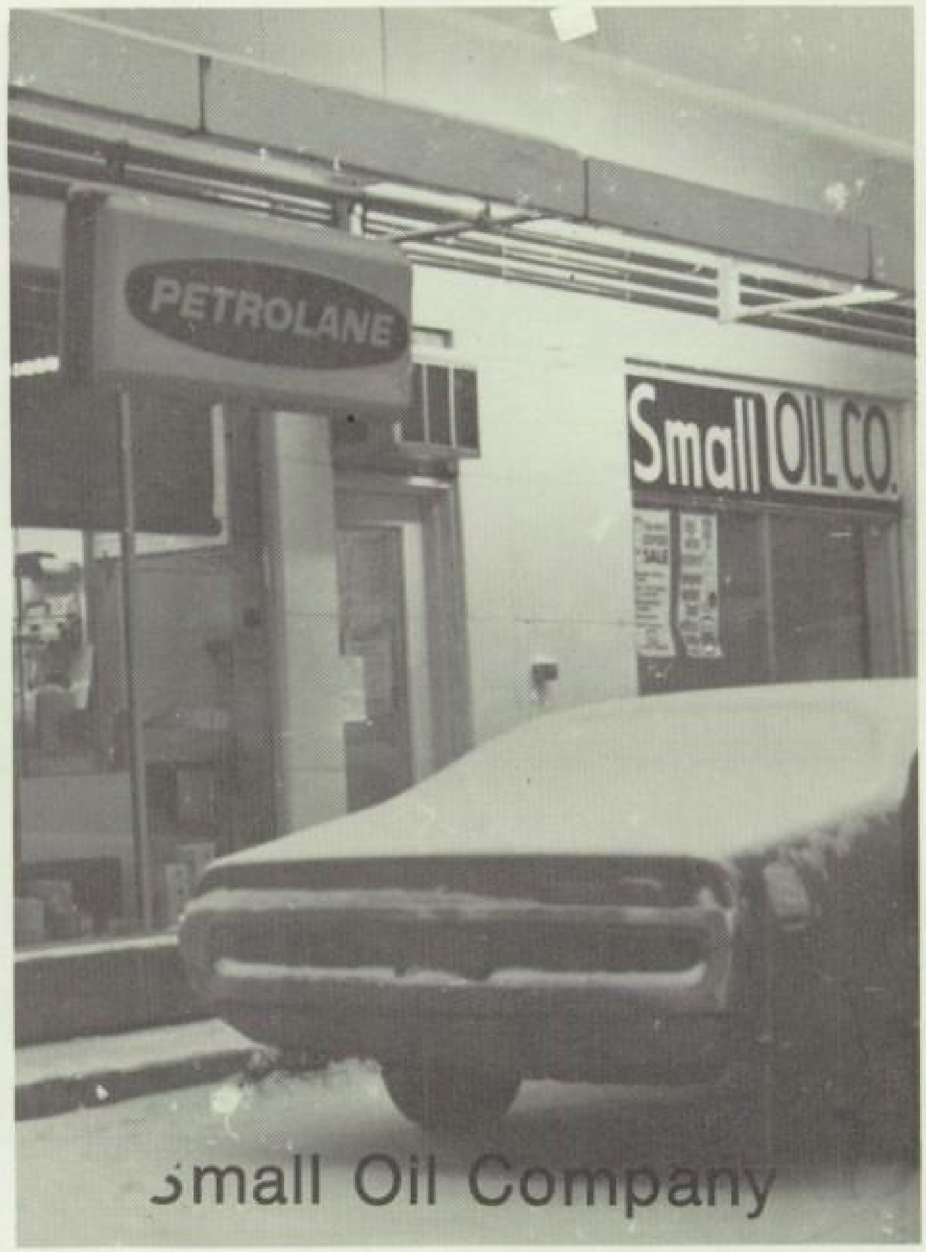

For the vision of one man lends not its wings to another man.

And even as each one of you stands alone in God's knowledge, so must each one of you be alone in his knowledge of God and in his understanding of the earth.
